<i>16 body shots, 4 head</i>			
<b>TOTAL 20 ROUNDS Max 250 points, Passing 80% 200 points</b>			

PD 1 & 2 COF complete

50RDS Total

# Scoring instructions

## Scoring areas for qualification on this target IDPA

1. -0 areas hits here count as 5 points
2. -1 area hits here count as 2 points

All other impacts are counted as zero points. More than 50% of the round circumference must pass into the highest scoring area for it to count as a scoring hit. Otherwise it goes to the lowest level score. The instructor has the final word and calls the hit. His word is final.

**Scoring zones on the “IMTT target” are clear; there are only hit or miss.** There is only one scoring zone on the head and the body, which count as 5 points for each hit. There are no lower point value strikes, A LINER; Impact of round striking the line between scoring areas, breaking line counts as lowest score or miss. Due to the large scoring area no latitude is given for poor hits on this target.

Excess hits in the head or the body will count as -5 points. Regardless of where rounds impact they penalty for overtime is -5 per shot. So a missed hit plus an overtime hit can result in -10 points from the score. Yes this can result in -10 if the person shoots over time, fails to hit...

- This course of fire complete is 50 rounds for a maximum of 250 points.  
Scoring of the target,  
-0 hits            5 points each  
-2 zone            2 points each

More hits than are designated in a specific area (head or body) count as a miss.  
EXAMPLE: 20 head shots, points because there is 4 more hits than are specified.

- All stages begin with a holstered weapon except the support hand only stage.
- For the complete course of fire there is a total of,  
14 head shots  
36 body shots
- The break down per course is PD1 & PD2,

**PD1 COF:** 20 body shots, 10 head course total of 50 rounds

**PD2 COF:** You shoot both courses of fire combined for the complete course for the PD 2 COF.

36 body shots, 14 head shots, course total of 50 rounds
